

Sl. No.	Branch	AREA OF RESEARCH
1	Electrical	Transformers - Estimation of short circuit withstand capability, Performance evaluation
2	Electrical	Dynamic protection scheme for distribution system with electric vehicle charging
3	Electrical	Railway Electrification
4	Electrical	Development of miniature circuit breaker (MCB)
5	Civil	Design and development of novel transmission line tower with reduced Rights of Way
6	Mechanical	Non-destructive evaluation (NDE) based condition assessment of inaccessible areas of turbine blades
7	Chemical/Chemistry	Stability of Mineral Insulating oils
8	Chemical/Chemistry	High Energy Density Composite Materials for Fast Charging Lithium Ion Battery
