

High Power Laboratory (HPL) will remain under shutdown **from 01/10/2026 onwards due to ongoing augmentation works** related to installation of new 2X2500MVA Short Circuit Generators and extension of Short Circuit Bus-bar System to the new SC Generators. In view of this , Customers are requested to kindly explore the possibility of carrying out their tests related to High Power Lab at CPRI, Bhopal. Your cooperation at this juncture is highly solicited and appreciated.
